

Experience

Mar 2019 - Present
Copenhagen, Denmark

Designit, UX Design Intern

Involved in the tasks related to UI/UX design, workshops preparation and design research.

Aug 2018 - Mar 2019
Copenhagen, Denmark

Dixa, Frontend developer

Worked on the redesign process customer service platform.

Nov 2017 - June 2018
Copenhagen, Denmark

Cachet, Student Assistant

I worked on implementing ICAT - a web-based tool that assesses verbal memory, working memory and psychomotor speed using short tasks. I was responsible for UI/UX design and frontend development of the platform.

Feb 2017 - July 2017
Kraków, Poland

IBM, Web UI developer

My major tasks were related to the implementation of frontend part of the website designed for IBM Finance Department. Besides the development, I crafted the user interface of the platform, designed interaction patterns and researched use cases.

July 2016 - Aug 2016
Kraków, Poland

SolInteractive, Frontend Intern

Worked with multidisciplinary team focused on development of Smart Office project.
